

RELIGIOUS EDUCATION & WORLDVIEWS

At The Friars, we believe it is vital for all our children to learn about religion and other Worldviews, in order to understand the world around them and be prepared for life in Modern Britain. Through Religious Education, children develop their knowledge of the world faiths, their understanding and awareness of the beliefs, values and traditions of other individuals, societies, communities and cultures.

We actively encourage our children to look beyond their immediate environment, to the bigger picture of UK cultural richness which is reflected within our school. We encourage our children to ask questions about the world and to reflect on their own beliefs, values and experiences.

We believe if our children know about the faiths and worldviews currently thriving in Britain, the more likely they will be to respectfully embrace our multi-cultural nation. This supports and enables children to achieve our core school values of happiness, respect, achievement and determination.

Overall, our Religion and Worldviews curriculum readily contributes to the bank of knowledge and skills that our children will need in order to take advantage of opportunities, responsibilities and experiences of later life.
