

GEOGRAPHY INTENT

Our Geography curriculum is designed to ignite children's curiosity and fascination about the world and understanding of their local area.

Children will start by investigating the UK in Y1 and build on this knowledge by learning about Europe in Y2 and Y3 and then other countries across the world throughout Y4, Y5 and Y6. The knowledge learnt in the previous year is recapped and built on in the following year.

We are committed to providing children with opportunities to investigate and make enquiries about their local area of Salford so that they can develop a real sense of who they are, their heritage and what makes our local area unique and special. We intend to develop the children's ability to apply geographical skills to enable them to confidently communicate their findings and geographical understanding.
